

POWERSOFT IN THE JULIETA VENEGAS SHOW AT CORDOBA CITY – ARGENTINA

On Friday June 1st, in La Vieja Usina in Cordoba city – Argentina, Julieta Venegas presented her Show for an audience of more than 2500 people.

For the main P.A. system, thanks to the support of our Argentinian distributor Equaphon Company, the Sound Company “La Compania de Sonido” which was in charge of the full sound installation, was able to use 2 Powersoft DIGAM 7000 and 1 K8 per side in conjunction with a STS Line V5/V20 Line Array. For the Frontfill, it was used 1 Q4004. Both main P.A. and Frontfill were controlled by STS processors.

The remarkable performance of the Powersoft amplifiers was demonstrated once more in an international Live Show.
